

UNITED STATES DISTRICT COURT  
NORTHERN DISTRICT OF NEW YORK

MICHELE BAKER; CHARLES CARR; ANGELA CORBETT; PAMELA FORREST; MICHAEL HICKEY, individually and as parent and natural guardian of O.H., infant; KATHLEEN MAIN-LINGENER; KRISTIN MILLER, as parent and natural guardian of K.M., infant; JENNIFER PLOUFFE; SILVIA POTTER, individually and as parent and natural guardian of C.P., infant; and DANIEL SCHUTTIG, individually and on behalf of all others similarly situated,

Plaintiffs,

v.

SAINT-GOBAIN PERFORMANCE PLASTICS CORP., HONEYWELL INTERNATIONAL INC. f/k/a ALLIED-SIGNAL INC. and/or ALLIEDSIGNAL LAMINATE SYSTEMS, INC., E.I. DUPONT DE NEMOURS AND COMPANY and 3M CO.,

Defendants.

Civ. No. 1:16-CV-917 (LEK/DJS)

**DECLARATION OF STEPHEN G. SCHWARZ IN SUPPORT OF  
PLAINTIFFS' MOTION FOR CLASS CERTIFICATION AND FOR LEAVE TO FILE  
SECOND AMENDED COMPLAINT**

I, Stephen G. Schwarz, Esq., declare and state as follows:

1. I am an attorney duly licensed to practice in New York State, and I am a partner in the law firm of Faraci Lange, LLP. I am fully familiar with the facts and circumstances surrounding this action. I submit this declaration in support of Plaintiffs' Motion for Class Certification.

**EXHIBITS IN SUPPORT OF MOTION FOR CLASS CERTIFICATION**

2. Annexed hereto as Exhibits S1 through S133, are true and correct copies of documents produced or served in this litigation, documents otherwise publically available and deposition testimony. Those are:

### **APPOINTMENT AS LEAD COUNSEL**

3. By Decision and Order dated July 27, 2016 (Dkt. # 20), Weitz & Luxenberg, P.C. and Faraci Lange, LLP were appointed interim co-lead class counsel in this matter. Since appointment as interim co-lead class counsel almost four years ago, Plaintiffs' Interim Lead Counsel have been effectively, efficiently and vigorously litigating this matter on behalf of the putative classes. Plaintiffs' Lead Counsel have done so in accordance with and pursuant to the Order the above referenced Order setting forth the responsibilities of Plaintiffs' Interim Lead Counsel as well as this Court's Order and governing guidelines regarding billing practices and related issues. (Dkt. # 21.)

4. With my partner, Hadley Matarazzo and I as well as Robin Greenwald and James Bilsborrow of Weitz & Luxenberg, have been responsible for managing and coordinating all work of Plaintiffs' Lead Counsel. During this litigation, we have asked other lawyers in our firms and other law firms to assist with litigation-specific work, including but not limited to the review of the extensive documents produced by Defendants during discovery, defense of class representative plaintiffs' depositions, and conducting more than a dozen depositions of representatives of Defendants and multiple other non-party witnesses. We have also coordinated the defense of

Defendants' Motions to Dismiss and the appeal of this Court's Decision and Order denying those motions to the Second Circuit Court of Appeals

5. To ensure efficiency, we have managed and directed the work being performed by all counsel in this matter. Further, Weitz & Luxenberg has on a monthly basis collected contemporaneous time and expense reports from every law firm that has billed time or incurred an expense in the prosecution of this putative class action.

6. Plaintiffs respectfully request this Court appoint Stephen G. Schwarz and Hadley L. Matarazzo of Faraci Lange, LLP and Robin Greenwald and James J. Bilsborrow of Weitz & Luxenberg, PLLC, () as co-lead class counsel, and John K. Powers of Powers & Santola, LLP as Plaintiffs' liaison counsel.

7. Together, Attorneys Matarazzo, Greenwald, Bilsborrow, Powers and I have the experience to adequately represent the classes of plaintiffs sought to be certified. The work we have done in this matter satisfies the applicable criterion under Rule 23(g) to serve as class counsel.

8. My firm, Faraci Lange LLP, has been engaged in the practice of law for over 50 years and is devoted to representing the interests of injured plaintiffs and consumers. The firm has offices in Rochester and Buffalo, and currently employs 14 attorneys, as well three nurse consultants, and a staff of paralegals and legal assistants. The firm has a stellar reputation in both the legal and broader community, and its attorneys pride themselves on providing individualized service and top-notch representation to every client no matter how big or small the case. Faraci Lange attorneys are experienced trial attorneys who have been called on to litigate and try all types of cases, including complex medical malpractice cases, environmental toxic tort cases, mass tort product liability cases, consumer and employment class actions, and contract cases.

9. I am a Fellow in the American College of Trial Lawyers and an invited member of the American Board of Trial Advocates. Faraci Lange has 10 attorneys listed in the prestigious Best Lawyers in America directory under personal injury law and in the Upstate New York Super Lawyers directory, including lawyer of the year in various aspects of personal injury practice. Five of the firm's attorneys have been elected to the American Board of Trial Advocates and two are Fellows of the American College of Trial Lawyers. Faraci Lange is also an AV rated law firm listed on Martindale Hubbell's list of America's Preeminent Law Firms.

10. I am an experienced class action litigator familiar with the legal and factual issues in this case, and I am qualified to serve as class counsel. I am my firm's managing partner, and have been engaged in trial work since 1984. I have tried over 50 complex cases in my career, including environmental toxic tort, medical malpractice, product liability and patent cases. Specifically, Ms. Matarazzo and I also successfully represented plaintiffs in large environmental contamination cases in New York State courts that have established important precedents in this area of the law, including *Allen v. General Elec. Co.*, 32 A.D.3d 1163 (4th Dept. 2006); *Baity v. General Elec. Co.*, 86 A.D.3d 948 (4th Dept. 2011); and *Ivory v. International Business Machines Corp.*, 116 A.D.3d 121 (3d Dept. 2014). More recently, our firm was also appointed co-lead class counsel in *Burdick, et al. v. Tonoga, Inc.*, Rensselaer County Index No. 00253835, a certified class action related to PFOA contamination in Petersburg, New York.

11. I am prosecuting two consumer class actions pending in the Western District of New York involving overcharges to patients for copies of their own medical records. Faraci Lange was appointed co-lead class counsel in *McCracken et al, v. Verisma Systems, Inc.*, Civ. No. 6:14-CV-0648 by the Hon. Michael A. Telesca, U.S.D.J., and is acting as co-lead counsel in a similar action, *Carter et al, v. CIOX Health, LLC, et al.* Case No. 14-CV-6275.

12. My partner, Hadley Matarazzo, has acted as interim lead counsel in two data breach class actions, *Fero et al. v. Excellus, et al.*, Case No. 6:15-CV-06569 (WDNY) and *Denier v. Taconic Biosciences, Inc.*, Index No 00255851, pending in Rensselaer County, New York. She has been appointed by court throughout the country to the Plaintiffs' Steering Committee in consolidated products liability litigations, including: *In re Bard IVC Filter Products Liability Litigation* (MDL 2641) pending in the District of Arizona, and was on the trial team for the first bellwether trial that resulted in a \$3.6 million dollar in favor of plaintiff in March 2018; *In re Biomet M2A Magnum Hip Implant Products Liability Litigation* (MDL 2391) pending in the Northern District of Indiana; and the Science Committee in *Stryker Rejuvenate/ABG II Multi County Litigation* (MCL 296), pending in Bergen County, New Jersey. Our client's case was one of two bellwether cases in the *In re DePuy Orthopaedics, Inc., ASR Hip Implant Products Liability Litigation* (MDL 2197) in Toledo, Ohio. Ms. Matarazzo and I were part of the four member trial team and responsible for specific causation, which included the areas of the orthopedic pathology and immunology. Ms. Matarazzo has tried a number of complex cases in her career.

13. Plaintiffs' Lead Counsel have performed significant work litigating this case on behalf of the putative classes. To date, this has included the following legal work performed or managed by Plaintiffs' Lead Counsel:

- Drafting responses to motions to dismiss filed by Defendants;
- Drafting an opposition brief and arguing the appeal by Defendants' of this Court's Decision and Order denying Defendants' Motion to Dismiss;
- Drafting and propounding hundreds of specific Requests for Production of Documents to Defendants, and thereafter engaging in several dozen lengthy, substantive meet and confers in person and by telephone with defense counsel, including, inter alia,

- negotiating search terms to be used in ESI discovery and prioritization of document production;
- Drafting and propounding Interrogatories to Defendants;
  - Analyzing numerous categorical and document-by-document privilege logs containing thousands of logged documents or categories of documents;
  - Receiving and overseeing the efficient, targeted review of numerous productions of responsive ESI and documents from Defendants between 2016 and the present, totaling over 100,000 separate documents/records encompassing more than 1,000,000 Bates pages;
  - Serving discovery requests via subpoena to and receiving responses from third-parties, including the New York State Department of Health and New York State Department of Environmental Conservation.;
  - Responding to multiple requests for production and interrogatories from Defendants for all class representative plaintiffs;
  - Preparing class representative plaintiffs for their depositions and Defending them;
  - Taking more than a dozen depositions of representatives of Defendants lasting multiple days each as well as non-party witness depositions;
  - Preparing and serving eight expert witness reports;
  - Regularly engaging in dozens of meet and confers with defense counsel on numerous, significant discovery disputes, and resolving many of the same short of motion practice;
  - Filing, and arguing, a discovery motions before the Hon. Daniel J Stewart;
  - Attending numerous in-person and telephone conferences with Magistrate Judge Stewart regarding litigation management and discovery disputes; and

- Drafting this class certification motion.

14. In addition, interim co-lead counsel have negotiated with defense counsel and argued before the Court regarding the content of several Case Management Orders that have set schedules and procedures for this case as well as the numerous individual actions filed before this Court involving the same or closely related subject matter.

15. During the course of this litigation, interim co-lead counsel have assumed overall responsibility for developing, implementing and driving litigation strategy and workflow for the last four years. We have scheduled and held countless hours of telephone and in-person strategy conferences with each other and other plaintiffs' attorneys involved in this litigation to seek input and provide information to all interested attorneys. We have also served deposition notices on all other counsel covered by the Case Management Order and negotiated agreements on division of time to question noticed witnesses.

16. The putative classes will benefit from the continuity of representation by our appointment as co-lead class counsel. We are committed to continuing representation and leading this case on behalf of the putative classes sought to be certified in the instant motion for class certification.

#### **STIPULATION TO AMEND COMPLAINT**

17. Due to information learned through discovery and from expert evaluation of the evidence, Plaintiffs requested that Defendants' consent to the filing of a Second Amended Master Consolidated Complaint. Defendants have agreed not to object to the filing of such an amended complaint and a stipulation is currently being drafted and will be filed for the Court to "So Order" in the near future. A copy of the Proposed Second Amended Master Consolidated Complaint is being filed as Ex. S133 herewith. The principal changes made through this proposed amendment

are a refinement of the class definitions and specifically narrowing the scope of the geographic area referred to as the “Contamination Zone”. This change affects the far eastern portion of the Town of Hoosick because of discovered overlap between contamination caused by emissions from the Hoosick Falls facilities, and specifically the McCaffrey Street fabric coating facility, and emissions from the former Chemfab fabric coating facility in North Bennington Vermont. Because properties in this region were contaminated by both facilities, residents living in this region had to be exempted from these classes to preserve commonality and typicality.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

DATED: April 6, 2020  
Rochester, New York

s/Stephen G. Schwarz
